Experience

Internship - Frontend Developer at Assentify

July 2024 - Nov 2024

Designed and developed a menu web application using Angular and TypeScript. Upon project completion, I collaborated with the team to create thorough documentation outlining the website's functionality. Following this, I contributed to the design and development of the settings interface.

Internship in Computer networks

September 2022 – November 2022

at Lebanese University faculty of Technology

Hardware and software implementation. Maintaining computer laboratory: format, install windows and software, ghost, recovery, etc. Gain hands-on experience with network hardware, including routers, switches, hubs, access points and network cables.

Admin on a Website

September 2023 – December 2023

at Provis

Worked as an administrator, enhancing the website's design using HTML/CSS and managing content updates via WordPress. Utilized HubSpot to upload and organize all company data within the CRM, collaborating closely with my team to oversee and manage all operations on the platform.

Skills

Front-end , Back-end , Database , OOP , UML , Network , Linux , Windows , Office , Problem solving , Team work , Communication , Presentation , C , C++ , C# , Java , Cyber security , WordPress, HTML, CSS, JavaScript, JQuery, Ajax, Laravel, Mobile Application (Android, IOS) React.js, Node.js, Project management, Git (GitHub), CISCO packet tracer.

Soft Skills: Word, Excel, Access, PowerPoint, Adobe Photoshop, Adobe Premier, Adobe Lightroom, FL Studio.

Projects

Menu Management App

Developed a menu application for managing ingredients and dishes, utilizing Angular and Firebase as the backend. Firebase handles both user authentication (login and logout) and data storage for the application's content. Applied skills from a Udemy course in Angular to build and enhance this project.

Portfolio Website

Developed a personal portfolio website using React.js and Tailwind CSS to showcase projects, technical skills, and contact information.

React Projects

Completed a React course on Udemy and developed multiple mini-projects and big projects utilizing various React features.

Created a fight game

Created a two-player fighting game using HTML5, Canvas, and JavaScript, featuring custom animations, an animated background, HP bars, and a timer that determines the winner based on remaining HP when time runs out.

Courses

Front-end Full course
Android Development(Java)

React.js and typescript
Angular (udemy course)

Extracurricular activities

Personal Coach (Certified at CIS College)
at Younes Combat Club (my own gym)

Aug 2023 – Present
Chhim, Lebanon

Karate Coach (Certified with a black belt)
at 2B-Club Gym

May 2022 – Present
Chhim, Lebanon

Hobbies

Basketball | Football | Swimming | Boxing | Karate | Fitness and working out | running.
